Good Afternoon John:

It will not be possible for EPA to pull the vulnerability assessment produced by WA AW in response to the bioterrorism law.

The information is considered sensitive and the law is very specific that that the Agency is not to share these. It would take an Act from Congress for us to be able to release the information.

Thanks.

Also, would it be possible for you to pull the vulnerability assessment produced by West Virginia American Water in response to the 2002 bioterrorism law? The assessment would have been due on March 31, 2003, according to the law.

Thanks,

Ben Nuckols
